

# PHOENIX WATER

SERVICES AND TECHNOLOGIES

## CAPABILITY STATEMENT

Your Water Solutions Partner

## Company Overview

Phoenix Tech Consulting Pty Ltd, trading as Phoenix Water Services and Technologies, is a privately-owned leading provider of specialty chemicals, parts, and operational consumable items. We offer comprehensive services including labour for service, preventative maintenance, troubleshooting, and full-time asset operations. We can support our partners with small and large capital water treatment equipment. Our expertise extends to system audits and assessments, onsite water testing, and laboratory testing with detailed analysis interpretations. Our mission is to develop meaningful partnerships with our clients, by offering reliable and bespoke solutions, delivering quality in all we do to support our partners, and bringing value and innovation to enhance operational efficiency and sustainability.
